BUSINESS CLUB

BUSSINES CLUB NAISSLUS NIŠ

Business club Naissus is a non-governmental and non-profit association established on June 4, 2015 for achieving the goals of strengthening the existing solutions and exploring new ones for the development of southeast Serbia economy. The members of the association contribute to preserving the business environment and the role of Nis economy in Serbia's economy by investing hard work, energy, knowledge and skills, and especially through

- 1) Organizing events, conferences and meetings of successful business people and entrepreneurs doing business in Serbia for discussing existing and exploring new solutions of interest for the development of Nis economy and the economy of Republic of Serbia;
- 2) Cooperation with other similar organizations in the region for implementing mutual projects and business endeavours in Serbia;
- 3) Media promotions and organizing public debates for discussing the existing and exploring new solutions in improving the economic development of the City of Nis and Serbia;
- 4) Cooperation with foreign associations of successful business people and entrepreneurs for establishing and improving mutual business cooperation;
- 5) Representing the interests of the Association members before the Government of the Republic of Serbia and other state institutions and agencies;
- 6) Support to Association members through services, counselling, mediation and business informing;
- 7) Organizing meetings, public debates and lectures of experts for improving the management and Association members' business skills, building the capacities and strengthening the market competitiveness.

Association members of the Business club Naissus are respectful and successful citizens of Nis well-known for their corporate social responsibility and humanity. Leveraging the authority of their corporations, resources and time, the association members are not indifferent towards social changes related to children, cultural, health institutions or individual issues. There are almost no institutions in Nis which have not been supported by the Business club members through donations for the goal of improving the lifestyle of the citizens. There are hundreds of satisfied individuals working in business organizations whose managers are members of the association. As an association active on the territory of the city of Nis, it is in our best interest to make the city a socially safe place in which institutions, economy and citizens mutually foster true values.

KLUB PRIVREDNIKA NAISSLUS NIŠ

Klub privrednika Naissus je nevladino i neprofitno udruženje, osnovano 04.06.2015. godine, radi ostvarivanja ciljeva unapređivanja postojećih i pronalaženja novih rešenja za razvoj privrede jugoistoka Srbije. Ulažući veliki rad, energiju i znanje, članovi Udruženja daju veliki doprinos očuvanju privrednog ambijenta i pozicije niške privrede u ekonomiji Srbije i ovog dela Evrope a naročito:

- 1) organizovanja skupova, konferencija, i samita uspešnih poslovnih ljudi i privrednika koji posluju na teritoriji Republike Srbije radi razmatranja postojećih i pronalaženja novih rešenja od interesa za razvoj privrede Grada Niša i Republike Srbije u celini;
- 2) saradnje sa drugim sličnim organizacijama regionalnog karaktera radi ostvarivanja zajedničkih projekata i poslovnih poduhvata na teritoriji Republike Srbije;
- 3) medijskog promovisanja i organizovanja javnih debata i tribina radi razmatranja postojećih i pronalaženja novih rešenja u pogledu unapređivanja privrednog razvoja Grada Niša i Republike Srbije u celini;
- 4) saradnje sa inostranim udruženjima uspešnih poslovnih ljudi i privrednika radi ostvarivanja i unapređivanja uzajamne poslovne saradnje
- 5) zastupanja interesa članova Udruženja pred Vladom Republike Srbije i drugim državnim organima, agencijama i institucijama
- 6) podrške članovima Udruženja kroz usluge, savetovanje, posredovanje i poslovno informisanje
- 7) organizovanja tribina, skupova i predavanja eminentnih stručnjaka radi unapređivanja poslovnih veština menadžmenta i zaposlenih članova Udruženja, podizanja kapaciteta i jačanja konkurentnosti na tržištu.

Članovi Udruženja Kluba Privrednika Naissus su ugledni i uspešni građani Niša po svom društveno-odgovornom poslovanju i humanosti. Koristeći svoj i autoritet svog preduzeća, sredstava i vreme, članovi udruženja ne ostaju ravnodušni prema socijalnim i društvenim problemima vezanim za dečje ustanove, institucije kulture, zdravstvene ustanove ili pojedinačne probleme. Gotovo da nema ustanove u Nišu čiji rad članovi Kluba privrednika nisu pomogli donacijom, a sve u interesu građana.

U sastavu privrednih društava, čiji su direktori članovi udruženja, radi više stotina zadovoljnih pojedinaca. Kao udruženje koje deluje na teritoriji grada Niša, u našem je interesu da naš grad bude socijalno i društveno bezbedno mesto, u kome institucije, privreda i građani zajedno neguju istinske vrednosti.

01. BLACKLINE MESSENGER

BEZBEDNOST – ODLIČAN 5. Dvostruka enkripcija znači da niko, pa čak ni kompanija koja je napravila BlackLine, ne može da prati sadržaj vaše komunikacije. U igri je samo vaš telefonski broj i podaci iz imenika koji se koriste kao lista kontakta. Opciono, možete napraviti profil kojim se predstavljate drugim korisnicima.

Tekstualne poruke kajednoj ili više osoba, razmena slika, dokumenta i video sadržaja. Vremenski ograničene samouništavajuće poruke, enkriptovani Audio i Video pozivi suglavne odlike BlackLine aplikacije. Prevencija screenshot-a, verifikacija enkripcionih kodova između korisnika i zaštita aplikacije i sadržaja lozinkom kao dodatni nivo bezbednosti.

<https://blackline.rs>

SECURITY – EXCELENT 5. Double encryption means that no one, even the company that builds BlackLine program, can't access the content of your communication. You provide your telephone number and enable access to your contacts so they can be used as contacts in BlackLine. Also you can make a profile to present yourself to other users, but that is optional.

Text messages to one or multiply persons, exchange of photos, documents and videos. Time-limited selfdestructive messages, encrypt Audio and Video calls - that are the main characteristics of BlackLine application. Prevention of screenshots, verification of encryption codes between users and protection of application and content by password as additional security level.

02. M CONNECTION

Telekomunikacione usluge i oprema.

Medical line - Mreža namenjena zdravstvenom sektoru. Povezujemo klinike, ordinacije, apoteke i druge medicinske ustanove.

Bussines line - Konferencijske veze - unapredite poslovanje kompanije uz mnogobrojne prednosti koje pruža VoIP komunikacija.

Encrypted line - Namenska mreža - najviši stepen zaštite u komunikaciji uz garantovanu privatnost.

<http://mconnection.net>

Telecommunicational services and equipment.

Medical line - Network for medical institutions. We connect clinics, medical practices, pharmacies and other medical institutions.

Bussines Line - Conference calls - improve your business with many advantages that VoIP communication offers.

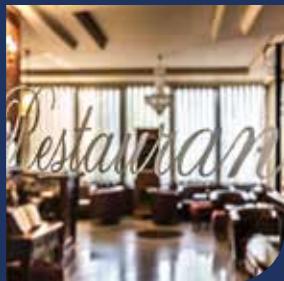

Encrypted line - Custom network that offers highest protection level in communication with a guaranteed privacy.

DENTALNI TURIZAM

DENTAL TOURISM

ORTODENT Stomatološka klinika je kompanija koja se bavi stomatologijom od 1968. godine. Osnivanje ideje i odličan vizionarski dr spec Božidar Radojičić napravio je svoje prve korake uspostavljanjem jedne od prvih privatnih stomatoloških praksi u bivšoj Jugoslaviji.

U našoj stomatološkoj ordinaciji, u ugodnom i funkcionalnom okruženju, bavimo se svim vrstama pitanja vezanih za zubne tretmane - od opšte stomatologije do ortodoncije i restorativnih procedura, bezkontaktno popravljanje zuba laserom, svi tipovi protetskih nadoknada, ispravljanje krivih zuba, anomalija, kraniofacijalne regije lica i vilica, ugradnja iz oblasti implantologije, nobelbajker, implatodajrekt- sve što je potrebno da nas opet osmehne. Naša klinika je nova i moderna, oprema koja se koristi cine proizvodi poslednje generacije od strane najpoznatijih evropskih brendova. Naši stomatolozi i osoblje učestvuju u ortodontskim stomatološkim kursevima za ažuriranje najnovijih tehnika.

Usklađena sa najvišim međunarodnim standardima, kao i sa potrebama stomatologa i pacijenata za odličnom radiološkom dijagnostikom, Klinika Ortodent je postala lider u pružanju kvalitetne, sigurne i brzog rendgenskog dijagnostike zubnog i maksilofacialnog regiona.

Naš cilj je poboljšati kvalitet života naših pacijenata i pružiti jedinstveno i personalno iskustvo u našem stomatološkom studiju. Naše usluge uključuju:

- Higijena i prevencija
- Opšta stomatologija
- Zubne proteze i fiksne proteze
- Zubni implantati sa neposrednim opterećenjem
- Cad - Cam tehnologija
- Periodontalna laserska terapija
- 2D i 3D skupljanje zuba i vilice

ORTODENT Dental Clinic is a company involved in a dental business since 1968. The founder of the idea and great visionary dr spec Bozidar Radojicic made his first steps by founding one of the first private dental practices in former Yugoslavia.

In our dental clinic, in a welcoming and functional environment, we deal with all sorts of issues related to dental treatments – from general dentistry to orthodontics and restorative procedures – everything it takes to make our patients smile again. Our clinic is new and modern, the equipment used in our clinic are products of the last generation by the most famous European brands. Our dentists and staff participate in orthodontic dental training courses to update on the latest techniques.

Complying with the highest international standards, as well as with the needs of dentists and patients for excellent radiological diagnostics, Ortodent Clinic has become the leader in providing the high quality, safe and fast X-ray diagnostics of dental and maxillofacial region.

Our goal is to improve the quality of life of our patients and to provide a unique and personalized experience within our dental studio. Our services include:

- Hygiene and prevention
- General dentistry
- Dental prostheses and fixed dentures
- Immediate-load dental implants
- Computer assisted restoration using CAD/CAM technology
- Periodontal Laser Therapy
- 2D and 3D teeth and jaws scanning

BY MAGIC parfemi

Predstavljamo Vam novu domaću liniju BY MAGIC parfema, kreiranu za Vas u saradnji sa poznatim svetskim parfemskim kućama. Parfem By Magic je intenzivan i trajan tokom celog dana, a bočica od 20ml je prilagodjena za svaku tašnu ili neseser. By Magic brand je lansirao 30 mirisnih nota za žene i 15 za muškarce. Svaka mirisna kompozicija predstavlja spoj pažljivo odabranih različitih esencijalnih ulja, koja će Vas uvesti u svet parfema kroz svežinu proleća, eleganciju bisera ili romantičnu ljubav. Njihov senzualni i tajanstveni miris, budi čula i čini da se osećate potpuno slobodno. Lepota je u jednostavnosti. Otkrijte šta je skriveno u ovoj jednostavnoj frosty bočici.

Od samog početka osnivanja, poslovna politika firme jeste obezbeđenje visokog kvaliteta i pružanje vrhunskih mirisnih nota po pristupačnim cenama. Naši mirisi su odabrani u saradnji sa čuvenim Francuskim parfimerima i proizvođačima. U procesu proizvodnje koristimo inovativna rešenja na osnovu kojih se trudimo da budemo korak ispred naših konkurenata. U svakoj fazi procesa proizvodnje, kontrola kvaliteta vrši se u skladu sa važećim tehničkim standardima kako bi se osigurao visok kvalitet i sigurnost naših proizvoda. Naši parfemi se pakuju u našoj, modernoj fabrici koja je opremljena po Evropskim standardima. Kroz implementaciju novih tehnologija i inovacija, kontinuirano ulazimo u razvoj i modernizaciju celog proizvodnog sistema..

BY MAGIC perfumes

We present you a new home line BY MAGIC perfume, created for you in cooperation with the world famous perfume houses. The By Magic perfume is intense and lasting throughout the day, and a bottle of 20ml is adapted for each bag or necklace. By Magic brand has launched 30 fragrant notes for women and 15 for men. Each fragrance composition is a combination of carefully selected different essential oils, which will introduce you to the world of perfumes through freshness of spring, pearl elegance or romantic love. Their sensual and mysterious smell, awakens the senses and makes you feel completely free. The beauty is in simplicity. Discover what is hidden in this simple frosty bottle.

From the very beginning, the company's business policy is to provide high quality and provide top-quality fragrant notes at affordable prices. Our fragrances were selected in cooperation with the famous French perfumers and manufacturers. In the production process, we use innovative solutions, based on which we strive to be a step ahead of our competitors. At each stage of the production process, quality control is carried out in accordance with the applicable technical standards in order to ensure high quality and safety of our products. Our perfumes are packed in our modern factory equipped according to European standards. Through the implementation of new technologies and innovations, we are continuously investing in the development and modernization of the entire production system.

Yumis products can be found in Macedonia, Montenegro, Albania, Bosnian and Hercegovina, Kosovo, Croatia, Slovenia, Greece, Italy, Germany, France, Sweden, Czech Republic, USA, Bulgaria, Romania, Russia, Belarus, Somalia, Kenya and Australia.

PRIJATELJ VAŠE KUHINJE

Yumis d.o.o. iz Niša osnovan je 1991.godine. Glavna delatnost kompanije je proizvodnja supa, začina, instant nudli, pudinga, šлага, čajeva, kikirikija, konditorskih proizvoda, aditiva za pekarsku industriju i raznih drugih proizvoda.

HACCP, IFS, ISO 14001:2004 i ISO 9001:2008 standardi garantuju kvalitet proizvoda i celokupnog proizvodnog procesa.

Yumis proizvodi su dostupni u svim objektima lokalnih distributivnih lanaca i kod njihovih kupaca.

Pored garantovanog kvaliteta sopstvenih proizvoda i brendova, Yumis je stao i iza serije kvalitetnih proizvoda sopstvenih brenova velikih sistema kao što su: RIAL, K PLUS, M, 365, PREMIA, LION, BAS BAS, ARO, TOP BUDGET, BRAVO, VERO, SPAR, FINO, IWI ALLKRYDDA, LENIS KRYDDA, BONUS PLUS, MARINERO.

Yumisovi proizvodi se mogu naći u Makedoniji, Crnoj Gori, Albaniji, Bosni i Hercegovini, na Kosovu, u Hrvatskoj, Sloveniji, Grčkoj, Italiji, Nemačkoj, Francuskoj, Švedskoj, Češkoj Republici, SAD, Bugarskoj, Rumuniji, Rusiji, Belorusiji, Somaliji, Keniji i Australiji.

LOVOPROMET doo

"Lovo promet" company was founded in Nis in 1991 and it is specialized in food trade, both wholesale and retail. From its foundation until the end of 1993 the company operated with three employees, with a modest capital, a small storage space and a narrow range of goods. The new fish products and frozen fish were introduced in 1994, which has made the company "Lovo promet" recognizable on the market.

Lovo promet®

In the year 2000 a brand new office and storage space was put in work, stationary cold storage with the capacity of 1,000 tons was installed and vehicle fleet was enriched with vehicles specialized for transporting fish, processed fish and seafood. In the beginning "Lovo promet" imported fish only from Bulgaria and Russia. Building a dedicated space created the possibility of importing fish and seafood from all continents. Today "Lovo promet" imports these goods from Argentina, Uruguay, Chile, Canada, Thailand, Vietnam, Morocco, Spain, Norway, Ireland, Poland, Germany, the Netherlands, Denmark, Italy, Greece, USA, the Falkland Islands, Indonesia, China, Iceland, Belgium, Scotland, Estonia, Latvia, Lithuania, etc. Constantly monitoring the market needs since 2002, "Lovo promet" has launched canned tuna, mackerel and sardines under its own brand – "Ocean Fish".

The range has been extended not only to the field of fish specialties and fresh fish, but also to the field of frozen and canned vegetables, fruit, fries, frozen pastry and poultry.

Today "Lovo promet" supplies more than 1,200 customers throughout Serbia.

In order to ensure that the consumers are confident in the safety of our products, and also to ensure that domestic and foreign partners are assured of our commitment to meet their demands, "Lovo promet" has introduced the system of management and quality according to the requirements of SRPS ISO 9001:2008 and the system of management of product safety CAC/RCA 1-1696, Rev. 4 (2003) SRPS ISO 22000:2007 (HACC). In "Lovo promet" retail stores the consumers have direct insight into the quality of our products, also the quality of our services and equipment is in accordance with the highest European standards. With 30 well-stocked fish markets, "Lovo promet" is the leader in Southeast and central Serbia. Thus our sales reached a level of almost 2,500 tons in 2009, with constant tendency of growth. This has created the need for the construction of modern cold storage with a storage capacity of approximately 2,500 tons and a static tunnel with capacity of 10 tons per day.

LOVOPROMET doo

Preduzeće „Lovo promet“ osnovano je 1991. godine u Niš i specijalizovano je za promet prehrabnenih proizvoda n veliko i malo. Od osnivanja do kraja 1993. godine preduzeć posluje sa troje zaposlenih, sa skromnim kapitalom, malir skladišnim prostorim i uskim assortimanom robe. Novi program smrznute ribe i proizvoda od ribe uveden je 1994. godine kojim preduzeće „Lovo promet“ postaje prepoznatljivo n tržistu.

U 2000. godini pušten je u rad novoizgrađeni poslovni i skladiš prostor, instalirane su stacionarne hladnjače kapaciteta d 1000 tona a vozni park je obogaćen specijalizovanim vozilim za transport ribe, prerađevina od ribe i morskih plodova. I početku „Lovo promet“ uvozi ribu samo iz Bugarske i Rusije Izgradnja namenskog prostora stvorila je mogućnost uvoz ribe i morskih plodova sa svih kontinenata. Danas „Lovo promet“ ovaj program uvozi iz Argentine, Urugvaja, Čilea, Kanade, Tajlanda, Vijetnama, Maroka, Španije, Norveške, Irske, Poljske, Nemačke, Holandije, Danske, Italije, Grčke, USA, Foklandske ostrva, Indonezije, Kine, Islanda, Belgije, Škotske, Estonije, Letonije, Litvanije itd. Konstantno prateći potreb tržista od 2002. godine „Lovo promet“ je plasirao na tržiš konzerviranu tunjevinu, skušu i sardine pod sopstvenir brendom – „Ocean Fish“.

Asortiman je proširen i na polju ribljih specijaliteta, svež ribe, ali i na polju smrznutog i konzerviranog povrća, voća, pomfrita, zamrznutog peciva i piletine.

Danas „Lovo promet“ snabdeva svojim proizvodnim programom više od 1200 kupaca širom Srbije.

Da bi potrošači bili sigurni u bezbednost naših proizvoda a domaći i inostrani partneri uvereni u posvećenost i ispunjenju njihovih zahteva, „Lovo promet“ je uveo sister menadžmenta i kvaliteta prema zahtevima standarda SRP ISO 9001:2008 i sistem menadžmenta bezbednošću proizvod CAC/RCA 1-1696, Rev. 4 (2003) SRPS ISO 22000:2007 (HACC). U maloprodajnim objektima „Lovo prometa“ potrošači imaju direktni uvid u kvalitet naših proizvoda a kvalitet usluge opreme je u skladu sa najvišim evropskim standardima. S 30 odlično snabdevenih ribarnica, „Lovo promet“ je lider u Jugoistočnoj i centralnoj Srbiji. Na taj način dostignut je nivo prodaje od skoro 2500 tona u 2009. godini sa stalnom tendencijom rasta. To je nametnuto potrebu za izgradnjom savremene hladnjače sa skladišnim kapacitetima od oko 2500 tona i staticnim tunelom kapaciteta 10 tona na dan. Dugogodišnja saradnja sa najvećim svetskim proizvođačima ribe i proizvoda od ribe vodi ka otvaranju distributivnog centra za Balkan. Na taj način otvara se mogućnost proširenja delatnosti na otkup i preradu voća, povrća, šumskih plodova itd. Paralelno sa razvojem firme, raste i broj zaposlenih radnika. Danas „Lovo promet“ ima 100 zaposlenih, među kojima su stručnjaci različitih kadrovskih profila u skladu sa potrebama firme. „Lovo promet“ pruža mogućnost stalnog napredovanja i stručnog usavršavanja te su zaposleni konstantno uključeni u najnovije trendove u svojim oblastima rada.

lovopromet®

Fazi je osnovan 1991. godine i danas je jedan od vodećih proizvođača elektronskih ruleta na svetu. U ovom periodu smo znatno razvili sve delove naše kompanije i bez prekida rastemo i modernizujemo se iz godine u godinu. Stalni zahtevi za sve sofisticiranjim mašinama od strane naših klijenata i korisnika, kao i novi trendovi na tržištu su učinili da stalni i neprekidni napredak i razvoj postanu glavna vizija budućnosti naše kompanije. Naš plan razvoja i ekspanzije u budućnosti se sastoji u osvajanju novih međunarodnih tržišta, uz istovremeno investiranje u naše lične kapacitete.

Imamo jako bogato iskustvo po pitanju svih vrsta razvoja vezanih za elektronske rulete, kao i za specifičan softver povezan sa njima, u oblasti širokog opsega procesa, razvoja i proizvodnje proizvoda za igre na sreću, i drugih izuzetno pouzdanih hardverskih /softverskih sistema. Osim toga, imamo ogromno iskustvo sa zakonski regulisanim tržištima.

IT Outsourcing/Near-Sourcing je jedna od naših osnovnih delatnosti. Bilo da se radi o WEB API-jima, mobilnim aplikacijama, integriranim sistemima maila i drugim vrstama softverskih aplikacija, mi pružamo usluge projektovanja, upravljanja sadržajem, testiranja (Q.A.) kao i usluge konsaltinga. Naša strategija je pružanje usluga vrhunskih softver programera, sjajnu infrastrukturu, pouzdan sistem upravljanja, potpunu transparentnost i pravnu zaštitu Vašeg poslovanja.

Naš plan je, takođe, da se fokusiramo na razvoj naših sopstvenih aplikacija za globalno tržište, stavlјajući akcenat na aplikacije za mobilne uređaje.

FAZI doo

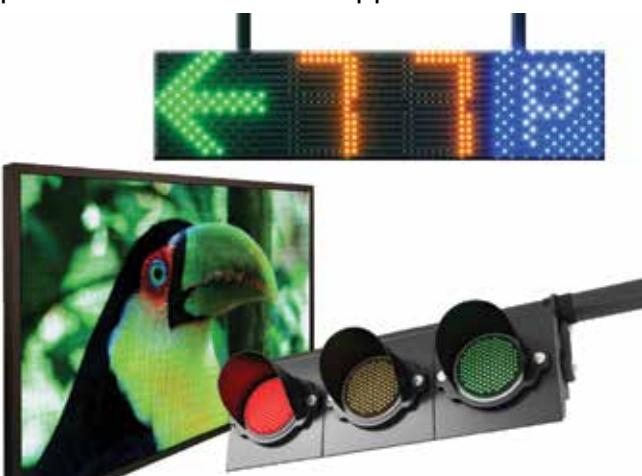

Fazi was founded in 1991 and today is the leading manufacturer of electronic roulettes in the world. During this period we have greatly improved all departments, never stopping our growth and modernization over the years.

Constant demands for more sophisticated machines from our clients and users, as well as new trends on the market, made continuous improvement the main vision of the future of our company. Our expansion plan for the future consists of conquering new international markets and at the same time investing in our own capacities.

We are highly experienced in all kinds of development related to electronic roulettes and consequently in the specific software related to them, in a wide range of processes, in development and manufacturing in terms of gambling equipment, and also in other software/hardware systems of high reliability. Apart from this, we have huge experience with jurisdiction regulated markets.

IT Outsourcing/near sourcing tends to be one of our core businesses. Whether it's development of Web APIs, mobile applications, embedded systems or other types of software applications, we provide design services, content management, testing (Q.A.) as well as consulting services. Our strategy is to offer high quality software developers, great infrastructure, reliable management system, full transparency and legal protection of your business.

Our plan is also to focus on the development of our own applications for the global market, putting the emphasis on mobile devices applications

MILK HOUSE Niš

Kada smo 2007. godine odlučili da formiramo novo ime na tržištu mlečnih proizvoda postavili smo sebi tri ključna pitanja:

Da li u okruženju imamo adekvatnu sirovinu?

Da li imamo dovoljno znanja, energije i resursa da ne odstupimo ni po koju cenu od vrhunskih standarda u proizvodnji i ne pravimo kompromise po pitanju kvaliteta?

Da li ima kupaca koji će to prepoznati na pravi način?

Odgovor na sva tri pitanja je bio DA... Ali krenimo redom.

Naše mleko nabavljamo od proizvođača sa Stare i Suve planine i Malog Jastrepca. Nedirnuta priroda i iskusni domaćini garant su njegovog kvaliteta i ispravnosti i što je najvažnije punoće ukusa, koje dobijaju od nezagađenih pašnjaka, čistih voda, reskog vazduha, u predelima gde nema industrije i velikih urbanih sredina.

A naši kupci prepoznaju prijatan ukus i visok kvalitet proizvoda.

Milk House proizvodnja se odvija u strogo kontrolisanim uslovima zatvorenog proizvodnog ciklusa koji apsolutno garantuju ispravnost i kvalitet.

Još na početku rada opredelili smo se za uvođenje evropskih standarda u organizaciji proizvodnje i dobili sertifikate HACCP i ISO 9001, kojima su garantovani naši visoki zahtevi u kvalitetu. Danas se svojim profesionalnim odnosom prema dobavljačima sirovog mleka, ambalaže, zaposlenimacim kupcima, Milk House nametnuo kao lider među manjim i srednjim mlekarama u ovom delu Srbije sa tendencijom daljeg rasta proizvodnje i širenjem broja kupaca. U želji da do krajnog kupca naši proizvodi dođu u kontrolisanim uslovima razvoz robe obavljamo sopstvenim namenskim vozilima sa rashladnim sistemima.

Zadovoljstvo u uživanju u ukusnom, zdravom, hranljivom, mleku i mlečnim proizvodima delimo sa našim potrošačima koji imaju aktivno učešće u sprovođenju naše MISIJE... koja kontinuirano nastavlja da slaže deo po deo savršenog mozaika jedne mlekare lidera u kvalitetu, koji zapošljava ljude, radi na povećanju resursa mlečnog fonda ovog dela zemlje i vraća dobro svom okruženju kroz društveno odgovorno poslovanje.

MILK HOUSE Niš

When we decided to form Milk House dairy in 2007. as a brand new name on the market of milk and dairy products we asked ourself 3 most importand questions:

Do we have enough good quality milk in the area?

Do we have enough knowledge, energy and resources to be uncompriomized regarding quality and highest standards in production?

Will we have enough buyers who can recognize this?

And we have all 3 answers as YES...

We collect our milk from producers of mountains Stara planina, Suva planina and Jastrebac. Untouched nature and experienced producers are guarantee of quality and full taste of best milk from clean fresh mountain air, clean waters and pure green grass without any industry or urban environment.

And our consumers can recognize that good taste of our products and high quality.

MilkHouse production is organized under strictly controlled conditions of closed circle process that guarantees quality of all products.

From the begginings we have implemented european standard of production management so we have certificates HACCP and ISO 9001. Today, with a proffesional and respectful relationship with our suppliers of milk and packaging, workers and buyers, Milk House is a leader in a group of small and middle size diaries of this part of Serbia with the tendency of continous growth of production and market. We have started to use our trasportation vehicles with colling systems, because we care to bring our products in controlled conditions.

We share a pleasure in tasty and nutritious milk and dairy products with our buyers that are a big part of our mission... that continues to make, part by part, a perfect mosaic of one dairy leader in quality and taste, that brings jobs, working actively on increase of milk funds of this part of Serbia, and brigs back to the community throw socially responsible business.

AGROGRADNJA COMPANY DOO

U građevinarstvu smo prisutni od 1992 godine kada je i otvoreno stovarište na lokaciji Krive livade broj 15. Kao Agrogradnja company poslujemo od 2000 godine. Vlasnik firme je Stanković Miodrag.

1992 godine je počela prodaja građevinskog materijala na 1 prodajnom mestu i postepeno je širen asortiman proizvoda i povećavan je broj prodajnih mesta, tako da danas prodajemo građevinski materijal na 4 prodajna mesta, na najboljim lokacijama u gradu.

Firma poseduje 59 vozila nosivosti od 3 do 30 tona, bagere i viljuškare, kojima vršimo razvoz robe do krajnjeg kupca. U posedu je i više prostora na atraktivnim lokacijama, pogodnim za iznajmljivanje.

Vizija Agrogradnje je da bude značajna regionalna kompanija, dugotrajna, profitabilna i prepoznatljiva po evropskim standardima kvaliteta.

On the market of building material we are present from 1992, when we have opened our first warehouse in Krive livade No. 15. As Agrogradnja company we are operate from the year 2000. Owner and founder is mr. Stanković Miodrag.

In 1992 we start trade of building materials on 1 location, and with the expande of our range of products we expend as company so we now operate on 4 different, best locations in Niš

We own 59 vehicles with transport capacity of 3 to 30 tons, excavators and forklifts, for delivering our products to buyers location. We also own several spaces, on attractive location, suitable for rent.

Our vision is to become noticeable regional company, with longlasting and profitable business, known for implementing european standards of quality.

MAKSI-CO DOO

Preduzeće MAKSI-CO, osnovano je 12.12.2003. godine. Sedište preduzeća MAKSI-CO nalazi se u selu Donji Adrovac. Osnovna delatnost preduzeća MAKSI-CO je otkup i prerada sekundarnih sirovina, najvećim delom otpadnog gvožđa, a takođe i otpadnog aluminijuma, otpadnog bakra, otpadnog mesinga, otpadnog prohroma i dr.

Preduzeće MAKSI-CO je izvozno-orientisana firma i ono kontinuirano održava dobre i stabilne poslovne odnose sa velikim brojem najznačajnijih železara kako na području Republike Srbije, tako i sa onima u okruženju. Takođe, razgranata mreža dobavljača i poslovnih partnera čini da preduzeće MAKSI-CO već godinama unazad predstavlja jednog od lidera u reciklaži čeličnog otpada na teritoriji južne i jugoistočne Srbije.

Glavno stovarište preduzeća MAKSI-CO nalazi se u selu Donji Adrovac. Povoljan geografski položaj stovarišta se ogleda u blizini i veoma dobroj povezanosti sa velikim brojem najznačajnijih industrijskih centara iz oblasti crne i obojene metalurgije i to preko železničkih saobraćajnica i najbitnijih putnih (magistralnih i regionalnih) pravaca. Valja pomenuti i to da preduzeće MAKSI-CO pored ovog u svom vlasništvu poseduje i dva pomoćna stovarišta, u Nišu i Negotinu, kao i stovarište u pripremi u Kruševcu. Takođe, u sastavu MAKSI-CO-a nalazi se i njegova čerka-firma FAGRAM doo, koje ima dugu tradiciju u obavljanju delatnosti proizvodnje šljakoblokova.

Misija, vizija i ciljevi preduzeća MAKSI-CO predstavljaju stožer njegovih poslovnih aktivnosti i poduhvata, a koje se odnose na održanje kao i poboljšanje njegove tržišne pozicije, jačanje i produbljivanje poslovnih odnosa sa već postojećim kao i potencijalnim poslovnim partnerima uz međusobno poštovanje i uvažavanje, a takođe i očuvanje zdrave prirodne i društvene sredine putem poštovanja i primene principa društvene odgovornosti i širenja ekološke svesti. Uz dati nivo ljudskih resursa i raspoloživih preradnih i transportnih kapaciteta, a u spremi sa povoljnim privrednim okruženjem, MAKSI-CO će u budućnosti usmeravati svoje napore ka očuvanju i unapređenju svoje trenutne pozicije regionalnog lidera na tržištu sekundarnih sirovina, kao i ka mogućnosti širenja svog poslovanja na teritoriji cele Republike Srbije i u zemljama u okruženju.

MAKSI-CO DOO

MAKSI-CO, was founded on 12.12.2003. godine in Donji Adrovac.

Main activity of company MAKSI-CO is management and recycling of iron waste, aluminium, copper, brass, etc.

MAKSI-CO is export oriented company with stable business relations with all the most important iron and steel plants in Republic of Serbia and surrounding countries. We have a good network of suppliers and business partners that make us one of the leaders in recycling iron waste in the region of South and South-East Serbia.

Main warehouse of the company MAKSI-CO is located in Donji Adrovac with good geographic position with good connection to the most important industry centers of black and nonferrous metallurgy over main railway routes and roads (local and regional). We have also additional 2 warehouses in Niš and Negotin, and 1 more that is now under construction in Kruševac.

Also as part of MAKSI-CO company operates company FAGRAM doo, with a long tradition in production of slag blocks.

Our mission, vision and main goals are backbone of all our business activities in maintaining and advancing our market position, with strengthening relationships with our partners, and making new relationships with new business partners with mutual respect and satisfaction, and also with activities on preservation of the environment by respecting principles of social responsibility and spreading ecological conscience.

With this level of human resources and available processing and transport capacities, in good business environment, MAKSI-CO will preserve and strengthen position of regional leader on the recycling market with

Company „RESOR“D.O.O was founded in 1992. as a company for production of new and repair of old communal upgrades.

We have started with 3 engineers and 12 workers in a space of 600m². Now we ar ecompanz of 12 engineers and 47 workers, in a indoor working space of 5700m² on the lot of 1,6 ha and office space of 250m². Also we have state of the art painting chamber of 80m².

We have organized restaurant for guests and restaurant for workers, and transportation for all of our workers to and from work by bus.

Our products are used in 93 cities of Serbia, but also in Macedonia, Montenegro and Bosnia and Hercegovina. Our results are proof that Resor is reginal leader in production of specialized vehicles.

Our upgrades we install on chassis of all world manufacturers "IVECO", "MERCEDES", MICUBIŠI", „VOLVO“, "DAF", "FAP", but also we are making customized upgrades based on customer specification. In production we use only verified components of "PARKER", "VOMA", "JUROP", "PRETISOLI", "OMFB".

From beggining our company is working with positive balance and every year we are expanding our production and number of workers. Resor has very good cooperation with the Faculty of Mechanical Engineering Niš, which is the main source of our highly educated personnel and excelent partner in many projects

Quality of our products and inovation offering us new markets and that is one of the main goals of our company.

Plans of our company are not limited to the market of our region. We have ambitions to go further and we believe taht with our quality and constant inovations we can achieve this goals.

Kompanija „RESOR“D.O.O osnovana je 1992. godine, kao preduzeće za proizvodnju novih i remont starih komunalnih nadogradnji.

Počeli smo sa tri inžinjera i dvanaest radnika u radnom prostoru površine 600m². Danas kompanija ima dvanaest inžinjera, četrdeset sedam radnika, radno pokriveni prostor od 5700m² na placu od 1,6 ha i kancalariski prostor od 250m². Uz to posedujemo i najmoderniju komoru za farbanje vozila površine 80m².

U sklopu fabrike je restoran za goste kao i restoran za sve zaposlene. Za njih je obezbeđen i prevoz sopstvenim autobusom.

Naši proizvodi nalaze se u 93 gradova širom Srbije, kao i u Makedoniji,Crnoj Gori i Bosni i Hercegovini. Postignuti rezultati govore da je kompanija Resor regionalni lider u proizvodnji specijalizovanih vozila.

Svoje nadgradnje ugrađujemo na šasijama priznatih svetskih proizvođača ‐IVECO‐, ‐MERCEDES‐, MICUBIŠI‐, ‐VOLVO‐, ‐DAF‐, ‐FAP‐, a pored toga, po želji kupaca radimo i specifične nadgradnje. U izradi se koriste isključivo proverene komponente koje proizvode ‐PARKER‐, ‐VOMA‐, ‐JUROP‐, ‐PRETISOLI‐, ‐OMFB‐.

Kompanija od osnivanja posluje pozitivno i svake godine uvećava obim proizvodnje i broj radnika. Resor ima veoma dobru saradnju sa Mašinskim Fakultetom Univerziteta u Nišu, koji je osnovna baza za regrutovanje visokoekovanih kadrova, kao i partner u projektima.

Kvalitet proizvoda i kontinuirana primena inovacija nam omogućava da osvajamo nova tržišta, što je jedan od osnovnih ciljeva naše kompanije.

Planovi kompanije nisu limitirani samo na tržište regiona. Ambicije sežu daleko dalje i verujemo da je kvalitetom proizvoda i stalnim primenjenim inovacijama te planove moguće ostvariti.

CD HIS DOO

Firma CD HIS osnovana je 1996.god. u G.Međurovu kod Niša, i skoro da ne postoji mesto u ovom delu Srbije u kojem puteve nisu radile mašine CD HIS-a. Počeli smo kao firma sa par zaposlenih da bi za ovih dvadeset i dve godine postala jedna od vodećih građevinskih firmi u regionu.

Ulaganjem u sopstvenu mehanizaciju i savremenu opremu i tehnologiju, investiranje u edukaciju zaposlenih kao i ulaganje u stručan kompetentan kadar- ostvaren je permanentni rast kvaliteta rada i stalno poboljšanje poslovanja. Jedan od dokaza kako „CD HIS“ d.o.o. radi jeste zadovoljstvo investitora koji se izražava kroz višestruko ponavljanje narudžbine. Danas je „CD HIS“ d.o.o. firma koju vodi visokoobrazovani stručni tim sa sopstvenom i najmodernijom opremom koja je neophodna za sve faze građevinskih radova.

„CD HIS“ d.o.o. se bavi izgradnjom i rekonstrukcijom objekata. Reputaciju su stekli na stambenim i poslovnim objektima, na objektima posebne namere, bolnice, pumpe, automobilski centri. Uspešno rešavamo sve zahteve, stručno i kvalitetno izvodimo kako grube gradjevinske tako i zanatske radove sa najboljim materijalima koji se nalaze na našem tržištu u najkraćim mogućim rokovima.

Preduzeće primenjuje SRPS ISO 9001/2008, SRPS ISO 14001/2005 i SRPS OHSAS 18001/2008. Osnovni cilj kompanije jesu stalni i uskladjeni razvoj firme kako i kvalitet i pouzdanst svih aktivnosti u procesu izgradnje objekata i pruzanju svih vrsta gradjevinskih usluga: rekonstrukcije i sanacija objekata, dogradnja i nadgradnja i to u svim fazama njihove realizacije. Primenom ISO standarda postignut je uravnoteženi kvalitet gotovog proizvoda koji CD HIS“ d.o.o. nudi korisnicima. Sistem kvaliteta i obezbeđenje je na svim nivoima od početka gradnje pa sve do povratne informacije zadovoljnih korisnika

We have implemented standards SRPS ISO 9001/2008, SRPS ISO 14001/2005 and SRPS OHSAS 18001/2008. Main objective of the company is constant growt, quality and reliability of all the activities in the construction and reconstruction and upgrades of various objects in all of the phases. “CD HIS“ d.o.o. provides quality system and safety on all the levels from start of the job to satisfaction of the customer.

PB NITOM DOO

Kompanija PB Nitom d.o.o. osnovana je 1994. godine u Nišu. Osnovna delatnost nam je uvoz i distribucija: bele tehnike, kućnih i malih kuhinjskih aparata, televizora i potrošačke elektronike. Početak rada i prve aktivnosti međutim datiraju ranih 90-tih kada se počelo sa veleprodajom tehničke i robe široke potrošnje.

Od osnivanja kompanije prvi prelomni događaj koji je obezbedio ubrazan razvoj kompanije je početak direktnе saradnje sa vodećim proizvođačima bele tehnike sa prostora bivše Jugoslavije i regiona Balkana: Obod (Crna Gora), Ei Niš, Sloboda Čačak, Alfa Plam Vranje, Milan Blagojević Smederevo (Srbija), Bira (Bosna i Hercegovina), Groupe SEB: Moulinex, Krups, Rowenta (Francuska), Susler (Turska), Koncar (Hrvatska), Metalec (FYR Makedonija),... Nastavljajući svoj ubrzani razvoj, kompanija je narasla i najpre postala lider u regionu, a ovog momenta se pozicionirala kao jedna od 5 najvećih Srpskih kompanija u oblasti uvoza i distribucije bele tehnike sa perspektivom daljeg kontinuiranog rasta i razvoja i potencijalom godišnjeg prometa većim od 20 Miliona USD.

Od svog osnivanja, sa svim svojim poslovnim partnerima trudimo se da imamo i razvijamo dugogodišnju saradnju - uvažavajući sve specifičnosti i potrebe svakog našeg kupca. Obzirom na našu prisutnost na teritoriji cele Srbije u mogućnosti smo da adekvatno odgovorimo svakom specifičnom zahtevu postojećih i budućih poslovnih partnera. Svim svojim poslovnim partnerima nudimo kompletну uslugu, uključujući pomoć prilikom izbora robe (product mix), pomoć i participaciju u marketinškim i prodajnim aktivnostima (marketing mix), kao i savetodavno, informisanjem krajnjih kupca i korisnika, kako pravilno koristiti uređaje i opremu, kako na najbolji način iskoristiti sve mogućnosti koje im stoje na raspolaganju i naravno efikasno rešavanje eventualnih problema koji se pojavljuju tokom korišćenja. Svim svojim kupcima nudimo dostavu robe, najviši nivo servisa, poštovanje svih dogovorenih rokova. Naš stručni tim, raspoloživ lager ne samo najprodavanijih artikala, brza i efikasna logistika su Vam uvek na raspolaganju.

PD NITOM DOO

PB Nitom d.o.o. company was founded in 1994. in Niš. Main area of interest is import and distribution of kitchen appliances, small home appliances, television sets and consumer electronics. Our roots are in early 90's in a business of wholesale of technical and consumer goods.

Our groundbreaking moment was direct cooperations with the leading manufacturers od home appliances in former Jugoslavija and region of Balkan like Obod (Montenegro), El Niš, Sloboda Čačak, Alfa Plam Vranje, Milan Blagojević Smederevo (Serbia), Bira (Bosna & Hercegovina), Groupe SEB: Moulinex, Krups, Rowenta (France), Susler (Turkey), Koncar (Croatia), Metalec (FYR Macedonia),... Continuing growth led to the position of the leader in the area of import and distribution of home appliances and today one of the 5 biggest serbian companies in the area of import and distribution of home appliances with a prospective annual turnover of 20 million USD.

From beggining we are trying to make stable and strong longterm cooperation with all of our partners, with a respect of all of our differences, their special needs and demands. And because of our presence on the whole market of Serbia we are able to response to all specific demands our our current and all potencial clients. We are offering the complete service, including help in products selection (product mix), help and participation in all marketing and sale activities (marketing mix), and including the advisory role with information services to end users and buyers, how to properly use equipment and appliances and solve all potencial problems in use. To all of our buyers we offer transport, excelent service, compliance with all of agreed deadlines. Our team of experts, our stock with wide range of products, fast and efficient logistic are always at your disposal.

Monicom d.o.o. je jedna od uspešnijih porodičnih kompanija u Srbiji, sa sedištem u Nišu i proizvodnim pogonima pozicioniranim širom južne Srbije. Uspešno posluje i razvija se od 1991. godine, postajući lider u oblastima kojima se bavi. Za skoro 30 godina postojanja, Monicom je prešao put od malog preduzeća do uspešne poslovne grupe sa preko 600 zaposlenih. Kompanija je u stopostotnom privatnom vlasništvu jedne porodice, a od 2015. godine, u njenom sastavu je i jedna od većih, modernijih i tehnološki najnaprednijih fabrika za zamrzavanje i sušenje voća u Evropi.

POGON ZA ZAMRZAVANJE

Ukupan preradni kapacitet hladnjače je 10.000 tona voća po sezoni. Optimalni kapacitet zamrzavanja višnje je 8t/h, dok je trenutni kapacitet skladištenja 6.000 tona, sa tendencijom proširenja. Proces proizvodnje je optimalno automatizovan i počinje linijama za prijem, pranje, sortiranje, kalibriranje i iskoštičavanje voća, renomiranog proizvodjača PIGO-R. Nakon zamrzavanja, proizvod prolazi lasersku kontrolu na dva TOMRA Heliustm C1200 laserska sortera koji garantuju proizvod ujednačene boje i bez stranih primesa. Proizvod se potom pakuje u kutije na automatskoj liniji za formiranje ambalaže.

Automatizovana oprema za pakovanje gotovih proizvoda još jedan je važan segment procesa kojim se ručna manipulacija proizvodima svodi na minimum. Svaka kutija prolazi i metal detektor. Ovakav način pakovanja sprečava gubitak osnovnih nutritivnih vrednosti voća, štiti od spoljašnje dehidratacije, promene boje i gubitka mase. U izboru i implementaciji opreme ispoštovani su najstrožiji kriterijumi u skladu sa svim evropskim i svetskim standardima, kao i sa nacionalnim propisima iz oblasti bezbednosti hrane.

POGON ZA SUŠENJE

Kapacitet naše sušare je do 150 tona sveže šljive za 24h. U ovom pogonu je instaliran najsavremeniji zatvoreni sistem sušenja koji obezbeđuje sušeni proizvod najvišeg kvaliteta. Korišćenjem prirodnog gasa kao energenta i niskih temperatura sušenja (do 74 stepena Celzijusovih) dobija se zdrav i ukusan proizvod koji će zadovoljiti svakog krajnjeg potrošača. Ceo proces sušenja se elektronski vodi i kontroliše. Sveža sirovina provodi od 18 do 22 časa u 16 komornih tunela od nerdjajućeg čelika, nakon čega se rehidrira u skladu sa zahtevima kupca i željenim nivoom vlage u finalnom proizvodu. U ovom pogonu najviše se suše šljiva i višnja, ali je oprema u sušari univerzalna i može se koristiti za sušenje gotovo bilo koje vrste voća, u zavisnosti od želja i specifikacija kupca.

Konačno, veliku pažnju posvećujemo i svojim kadrovima i njihovom razvoju, uzimajući u obzir činjenicu da je naš tim sačinjen od spoja iskusnih eksperata sa dugogodišnjim iskustvom u ovoj oblasti i mladih, obrazovanih ljudi, koji svi zajedno čine temelj našeg uspeha..

Monicom d.o.o. is one of the more successful family-owned companies in Serbia, headquartered in Niš with manufacturing facilities positioned across the south of the country. It has been successfully operating and growing since 1991, becoming the market leader in the business areas it is involved in. During nearly 30 years of existence, Monicom has grown from a small enterprise to a successful business group with over 600 employees. The company is 100% family-owned, and since 2015, its latest venture has been an investment into one of the bigger and most technologically sophisticated plants for the freezing and drying of fruit in Europe.

FRUIT FREEZING PLANT

The total processing capacity of our freezing plant is 10.000 tonnes of fruit per season. The optimal freezing capacity for sour cherries is 8 tonnes per hour, with 6.000 tonnes of storage capacity that is to be expanded. The production process is optimally automated and starts with the lines for fruit reception, washing, sorting, calibrating and fruit pitting made by the internationally recognised manufacturer PIGO-R. The product then goes through flow freezing tunnels FRIGOSCANDIA Flo-Freeze®A with the LSV Refrigeration system that individually quick-freezes the product and at the same time fulfills the most demanding requirements with respect to hygiene and efficiency. This way, the product retains all the basic nutritional elements and is in complete compliance with all health and safety requirements. After freezing, the product then goes through laser inspection, using two TOMRA Heliustm C1200 laser sorters that guarantee a product which is of even colour and free from any foreign matter. The product then goes onto the packaging line and into automatically assembled box cartons.

Automated packaging equipment is another important part of our production process that minimises product manipulation by hand. Each box carton also goes through a metal detector. This way of packaging prevents the loss of nutritional values of fruits, protects them from external dehydration, change of colour and volume loss. In the process of technology implementation, the most demanding requirements were met in compliance with European and international standards, together with national food safety regulations.

FRUIT DRYING PLANT

The capacity of our fruit drying plant is 150 tonnes of fresh plums per 24 hours. In this plant, the most advanced closed system of drying has been installed which provides a dried product of the highest quality. By using natural gas as an energy source and low drying temperatures (up to 74 degrees Celsius), we are able to deliver a healthy and tasty product that will satisfy the most demanding final consumer. The entire process is computer-controlled and monitored. Fresh fruit is placed into 16 stainless steel chamber tunnels, where it stays between 18 and 22 hours. Afterwards, it is rehydrated according to customer requirements in terms of the desired level of moisture in the final product. Our dried products are predominantly prunes and dried sour cherries, though the technology installed in the plant is universal and can be used for drying almost any type of fruit, as per customer request and specification..

Finally, our team and their personal and professional development are very important to the company, seeing as it consists of experienced experts in the field and a young, well-educated management, all of whom together form a vital part of our success.

GRAD NIŠ

Na osnovu popisa stanovništva iz 2011. godine, grad Niš je, sa 260.237 stanovnika, treći po veličini grad u Republici, najveći grad centralne Srbije I sedište Nišavskog upravnog okruga i povezuje Evropu sa Bliskim Istokom zbog čega od davnina važi za kapiju Istoka i Zapada.

Prepoznatljive prednosti grada Niša:

- o Dostupnosti grada iz svih pravaca
- o Međunarodni aerodrom Konstantin Veliki, drugi po veličini putni i kargo aerodrom u Srbiji.
- o Univerzitet sa 13 fakulteta i sa oko 30.000 studenata, kao i veliki broj srednjih i stručnih škola
- o Postojanje raspoloživih infrastrukturno opremljenih grinfeld i braunfeld lokacija, uz podršku Grada u svim fazama realizacije investicije.
- o Duga industrijska tradicija i stručni i kvalifikovani ljudski resursi.

Jasno definisana podrška lokalne samouprave kroz Kancelariju za lokalni ekonomski razvoj I projekte, zvanično otvorene 2009. godine, da bi od 2017. godine objednala projektne i investicionie aktivnosti u Gradu kroz realizaciju razvojnih i investicionih projekata i upravljanje instrumentima lokalne razvojne politike.

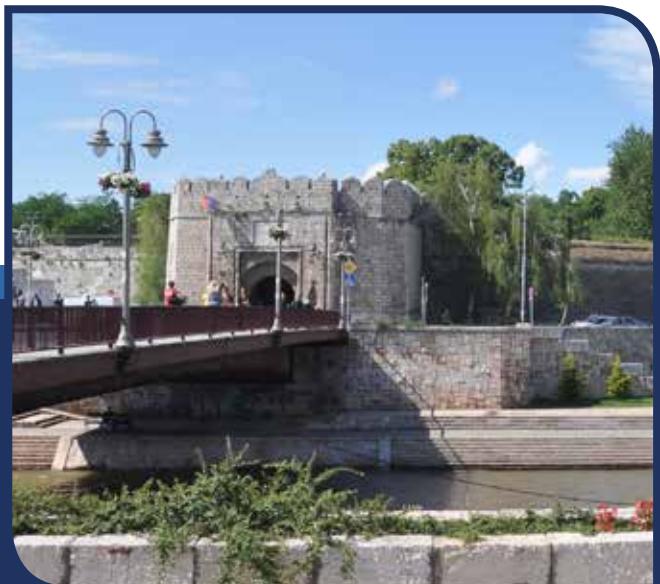

Da Grad Niš predstavlja idealnu investicionu destinaciju dokaz je i to što je u izgradnju novih fabrika u Nišu, u poslednjih nekoliko godina, uloženo više od 250 miliona evra direktnih stranih investicija. Novim investicijama otvoreno je više od 10.000 radnih mesta, dominantno u automobilskoj i elektronskoj industriji, a u pripremi je još toliko novih. U Nišu danas posluje 200 kompanija u oblasti naprednih tehnologija kao i više od 20 inostranih investitora. Za infrastrukturne projekte koji se trenutno realizuju izdvojeno je blizu pola milijarde evra dok država investira blizu dve milijarde evra u izgradnju autoputeva, obilaznice, gasne interkonekcije i druge infrastrukturne projekte u ovom delu Srbije.

Niš u budućnosti će biti Grad koji će u regionalnim okvirima biti poznat po svojoj privredi, Naučno tehnološkom parku i nadasve, dobrim ljudima na dobrom glasu, koji su bili i ostali glavna konkurentska prednost Grada Niša.

Da Niš predstavlja grad budućnosti prepoznato je i na evropskom i nacionalnom nivou. Grad se zvanično našao na 7.mestu evropskih gradova budućnosti, u kategoriji gradova do 500.000 stanovnika, na listi magazina Financial Timesa. Kao region, Niš se našao na trećem mestu u kategoriji privlačenja direktnih stranih investicija.

U 2018. godini NALED je grad Niš nagradio priznanjem „Šampion lokalnog ekonomskog razvoja“ u kategoriji za najbolju praksu u privlačenju investicija.

Projekat “Internacionalizacija udruženja - organizovana poseta međunarodnog sajma EuroCis 2019. u Dizeldorfu” Kluba privrednika Naissus, podržala je Kancelarija za lokalni ekonomski razvoj i projekte kroz mere Programa lokalnog ekonomskog razvoja Grada Niša za 2018. godinu.

CITY OF NIŠ

According to the 2011 census administrative area of city of Niš has population of 260.237 inhabitants, and it is 3rd largest city in Serbia and center of Nišava District. With its ideal position that connects Europe with Middle East Niš was through history considered as gate of East and West.

Main advantages of the city of Niš:

- o easy access from all the directions
- o Internation airport Constantine the Great, second largest airport in Serbia
- o Univercity with 13 faculties and around 30.000 students, and great number of highschools and socialized schools
 - o available infrastructural and equiped greenfield and brownfield locations, with a support of the city in all the phases of the investment
 - o long industrial tradition and qualified and educated human resources.

Clearly defined support of the local community through the Office of local economical development and projects, that is founded in 2009. From 2017 this office will consolidate all project and investment activities in the city through the realization of investment and developing projects and local develop politics tools management

City of Niš represents ideal investment destination, and as a proof of this we can mention more than 250 million Eur of direct foreign investments in last couple of years. With this new investments it is opened more than 10.000 work places, predominantly in automotive and electro industry, and we expect almost the same number of new work places to be opened soon. At the moment more than 200 companies from the area of advance technologies operate in Niš and more than 20 foreign investors. For infrastructural projects in progress at the moment it is reserved almost 0.5 billion Eur, and the state is investing almost 2 billion Eur in construction of highways, by-passes, gas interconnections and other projects in this part of Serbia.

In the future Niš will be known as a business center, with a science and technology park and highly motivated and educated people ready for new work challenges.

City of Niš is already seen as the city of the future because it is already on the 7th position on the list of European cities of the future, in the category of cities up to 500.000 inhabitants, by Financial Times Magazine. And as a region Niš is on the 3rd place in the category of direct foreign investment attraction.

In the year 2018 NALED rewarded city of Niš as “Champion of local economic development” in the category of investment attraction best practice.

Project “Internacionalization of the association - organized visit of International fair EuroCis 2019. in Dusseldorf” of Business club Naissus, is supported by the Office of local economic development and projects through the Program of local economic development of City of Niš for the year 2018.
